Aichi Sky Expo

Measures Against Coronavirus Disease

In light of the recent coronavirus disease that has been increasing the number of infected people in Japan, we are taking preventive measures such as preparing alcohol-based hand rub and posting precautions signs at each entrance.

For visitors, it is very important that each person observe coughing manners and carry out handwashing as preventive measures not only for the coronavirus but also cold or flu. Please make sure to take proper measures against infectious disease.

Please check Organizers' website, etc. for event cancellation status.
